In China :

M4U is a subdivision of the Dayang Trands Group. Dayang has 24 branch companies, 15 separate factories and over 8,000 employees and is based in Dalian, China.

Dayang Group is one of the largest and most successful clothing companies in the world. Their state-of-the-art production facilities are second to none, and currently clothe some of the world's wealthiest men such as Warren Buffett and Bill Gates. Why China? Because China is the only country producing generational sewers. Experience shows in the final product. This option represents the ultimate combination of price and value.

In Italy :

M4U has partnered with LUBIAM, one of Italy's top garment manufacturers to offer Private Label garments crafted for those preferring a European-made option.

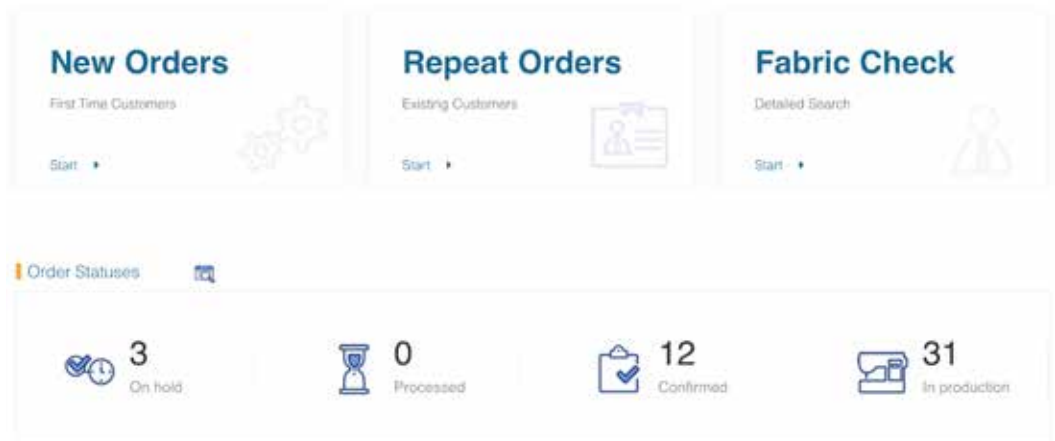

This option carries forth the same commitment to luxury since their founding in 1911 by Luigi Bianchi. All cloths in this program are premium European fabrications. The world's top fabric houses are cross-coded to eliminate the need for separate CMT. Delivery time is 6 weeks.

Have you ever had a customer who waited too long to tell you he needed a garment?

M4U is one of the few vendors who can get you a suit in a hurry. We have over 700 in-house fabrics that can be delivered in **SIX WORKING DAYS** (plus shipping). Your reliable expectation is to receive the garment in 15 calendar days.

M4U cannot guarantee the lead time required for Customs Clearance and International Shipping Delays. The forementioned 15 calendar day expectation applies only to in-house fabrics and linings.

Your goal is to dress your customer 7 days a week, and become their go-to for all of their clothing needs.

On occasion, they run into a clothing emergency: a wedding they didn't plan for, a meeting they don't have the right suit for, or their basic grey suit tore. If they don't have time for custom, they can be in a real jam.

To solve this clothing emergency, we have created an in-stock program of the following 8 styles, including 4 tailored pieces in Italian fabrics from Vitale Barberis Canonico, Guabello, and Drago.

This is the same construction offered in our custom garment, available at readymade pricing for immediate delivery:

Whether you need a single size for a customer, or want to order model stock to sell, these garments will be ready to ship within 24 business hours of ordering.

STOCKED, IN-HOUSE FABRICATION

A big benefit to being associated with one of the largest clothing companies is that certain fabrics, many branded, are purchased up front and stocked in our workrooms. This allows us to offer both favorable pricing and fastest turn on these fabrics. A current example includes a large collection of VBC and REDA, offered at only \$420 for a 2P Suit.

CUT LENGTH PROGRAMS

Another huge advantage to doing business with M4U is enjoying the benefits of our relationships with important fabric houses. Our relationship with Gladson alone allows you unparalleled access and special pricing to VBC and Carlo Barbera. Add in Drago and Ariston and you have collections for every need and luxury level.

CROSS CODING AGREEMENTS

M4U also has negotiated significant discounts for customers who already have swatch collections from Scabal, Loro Piana, Dormeuil, Marzoni and Ariston. You already have the collections. All you have to do is enter the fabric numbers... we do the rest.

Remote Selling has become increasingly important. These days, a picture can be worth a thousand dollars instead of just a thousand words. Having high quality swatch images to share with your clients can either inspire a client to buy something, or simply help create a sale that might not otherwise happen.

It's just one more way to show you we understand you and your business' needs.

You have the flexibility to provide measurements in three different ways:

TRY-ON GARMENTS: Simply purchase Try-Ons in stock sizes and use them for fittings to tell us what changes to make. It's as easy as fitting a suit off-the-rack. Choose from Regular, Slim or SuperSlim.

CORPORATE SALES : Use a company logo or icon to create a company vest or jacket and harness team spirit.

Some clients demand the very best. For that customer, M4U offers a hand made Bespoke garment which combines the ultimate in premium make with old-world craftsmanship. Perhaps the best value in the luxury clothing industry today.

FIRST-FIT GARMENTS

When you have a gentleman who is hard to fit and/or he wants to place a large order, you may want to make a sample garment to confirm your measurements before proceeding with the order. This unfinished, basted, machine sewn option delivers just that in only 3 weeks. The cost for this service is only \$175 and it is available for both regular and Bespoke orders.

Why? There is a customer out there in the market that many of us in custom have been unable to reach. This customer often aspires to the best of everything, and for his entire life he has marketed to that the best clothing comes from Italy. Movies, magazines and anything with a marketing budget has convinced him of this.

This is a customer we don't have who shops with Canali, Zegna, Pal Zileri and Corneliani to name a few. While country of origin no longer defines what is the "best", M4U now gives you an easy way to reach this customer with a full custom garment for him without the usual hanging inventory commitment that often comes with it.
